

Merseyside Environmental Trust

Pen Portrait – Chris Hennessy

Unlike Stephen I was born in Portsmouth (Southern Softy!!) But I have been in Liverpool so long I feel am an adopted scouser. I served my time (no not there) in Plessey Telecomms , (later Marconi) I was eventually the Environment and Maintenance Manager. It was during this time that I was involved in implementation of Environment Management Systems at Edge Lane and the site at Cambridge. I also carried out Environmental Audits and Duty of Care inspections. When I left Marconi I was involved with the implementation of Rotters in Garston and subsequently the Food Waste industry with Tidy Planet.

I have been part of MET for several years following on from some time with Liverpool Community Environment Network. I play golf regularly, I recycle whatever I can and earlier this year recycled 60,000 DVD's. Last year I facilitated the recycling of 7000 pillows. We all have to do our bit. I also do some work in the Event Industry; this gives environmental opportunities to influence contractors to improve their impact on the environment.
